Medical Statement for Dietary Disability - School Meal Modification

Important! Carefully read and follow the procedures for a dietary disability. The school will return incomplete Medical Statements to the parent/guardian. If you have questions about this form, the school contact named in Part A below will assist you.

Modification due to a dietary disability:

- A school is required to make meal modifications prescribed by a licensed physician, advanced practice nurse with prescriptive authority or physician assistant to accommodate a student’s dietary disability.
- If this is a life-threatening food allergy resulting in anaphylaxis, ensure the Allergy & Anaphylaxis Action Plan form is completed by school nursing staff.

Definition of Disability:

Under Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act (ADA), a “person with a disability” means “any person who has a physical or mental impairment which substantially limits one or more major life activity, has a record of such impairment, or is regarded as having such an impairment.”

Major life activities covered by this definition include: caring for one’s self, eating, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning and working. Major life activities also includes “Major Bodily Functions” such as: functions of the immune system, normal cell growth, digestive, bowel, bladder, neurological, brain, respiratory, circulatory, cardiovascular, endocrine, and reproductive functions. The term “physical or mental impairment” includes, but is not limited to, such diseases and conditions as:

- Orthopedic, visual, speech and hearing impairments
- Heart disease
- Cerebral Palsy
- Metabolic diseases, such as diabetes or phenylketonuria (PKU)
- Epilepsy
